## Ek Nazar

### From Principal's Desk ...

Dear Parents,  
Greetings,

Today, the semblance of a school is not only to shadow academic excellence but also to propel and capacitate its students to be deep-rooted pupils, critical thinkers, and constructive members of an ever-changing global society. At Delhi Public School Panvel we provide an approbative atmosphere to our students for ambidextrous development where children are encouraged to channelize their abeyant in the pursuit of excellence. This can only be possible in a holistic, student-centric entourage. We believe that the importance of the academic excellence of our students is an utmost need of the hours and our students are trained to achieve academic excellence. The award ceremonies are our way of appreciating this very achievement by our students

which is again a way forward to realizing that recognition is a way of appreciating their efforts and at the same time also ensuring that they strive to achieve and know that efforts are always recognized and appreciated. Our scholars are example setters who further encourage the others who are new to the Delhi Public School Panvel environment and, the ones who are yet to learn and exploit their proficiencies. Our first batch of Grade XII has appeared for their first board examination after two years of online schooling and I wish them all the best for their results & future endeavours. With this it is also a great beginning for us as we welcome the first physical batch of grade XI who will enjoy complete physical schooling in Senior Secondary School. We celebrated our 8th Founders Day celebration physically, recognizing

excellence and felicitating our First Batch of Grade XII in a unique way. In continuation we also had a 4-day scholar badge ceremony for all our students from primary to secondary. The talent, skills, and abilities of each student need to be identified, nurtured, and encouraged so that he / she is able to reach greater heights. We wish each one of you who has been associated with us since the inception a very happy and strong way forward to the coming years. I appreciate your conviction and association with us. Your support and suggestions help us to achieve and perform beyond limits. The school is striving hard to make the best possible efforts to inculcate strong values blended with academics & extracurricular

activities in the children. Converting every individual into a self-reliant and independent citizen. We want you to make the most out of your time with us and take advantage of the experience of others. We also offer career counselling for each child right from grade IX to XII. Delhi Public School Panvel is dedicated to expanding the pool of knowledge and creation of ideas through excellence. The combination of our rich academic heritage and treatment makes the school a unique experience of life time. Wish you Triumph and Opulence.

the same time gives them exposure to new adroitness. Post pandemic this is our new way of giving our students a break from the academic life and allowing them to exhaust there energies in a positive manner.

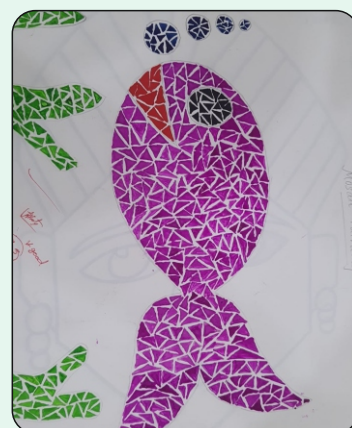

# ART AND CRAFT

Art and craft as a subject on the curriculum is generally taken for granted as an entitlement for children and young people in formal education. Images of small children cheerfully elbow

deep in primary colours and young people meaningfully engaged in front of a well-known painting spring to mind. We are trying to bridge by giving students regular work experience, through art

and craft . Opening doors of opportunity Within the context of formal education the subject supports personal, social, moral, spiritual, cultural and creative development, and enables

participants to engage with and explore visual, tactile and other sensory experiences and how to recognise and communicate ideas and meanings.

## SPORTS

The global outbreak of COVID-19 has resulted in closure of gyms, stadiums, pools, dance and fitness studios, physiotherapy centres, parks and playgrounds. Many individuals are therefore not able to actively participate in their regular individual or group sporting or physical activities outside of their homes. Under such conditions, many tend to be less physically active, have longer screen time, irregular sleep patterns as well as worse diets, resulting in weight gain and loss of physical fitness. Low-income families are

especially vulnerable to negative effects of stay at home rules as they tend to have sub-standard accommodations and more confined spaces, making it difficult to engage in physical exercise. The WHO recommends 150 minutes of moderate-intensity or 75 minutes of vigorous-intensity physical activity per week. The benefits of such periodic exercise are proven very helpful, especially in times of anxiety, crisis and fear. There are concerns therefore that, in the context of the pandemic, lack of access to regular sporting or exercise routines may result

in challenges to the immune system, physical health, including by leading to the commencement of or exacerbating existing diseases that have their roots in a sedentary lifestyle. Lack of access to exercise and physical activity can also have mental health impacts, which can compound stress or anxiety that many will experience in the face of isolation from normal social life. Possible loss of family or friends from the virus and impact of the virus on one's economic well being and access to nutrition will exacerbate these effects.

## LIBRARY

The school during this week (20 June 2022 to 25 June 2022) celebration conducted various activities to ensure that the students' minds are

stimulated and focussed to attain this objective. All the students were engaged in the development of reading skills through diverse creative

students participated enthusiastically and shared their joys of reading with their friends.

### TEACHING STRATEGIES BY KINDERGARTEN TEACHERS

**30th June 2022** : The major prevention strategy for them is excellent instruction. Before the concept introduction lots of role play, imagination, art integration and role play take place where kids learn by doing fun which also helps them to develop their skills at this age.

The second major goal of kindergarten is to establish perspectives and attitudes on

which learning about and from print depend; it includes motivating children to be literate and making them feel like successful learners. In this section, we provide examples of materials and activities that have been used well toward these ends.

Learning with fun makes the concepts easier for them to understand.

on what is essential for preventive health. The pandemic has underlined the importance of the fundamental practices learned since childhood, such as hand washing with soap, in promoting basic hygiene to combat infections all around the world. We continue to

advance knowledge and facilitate solutions in order to support more inclusive societies, and break barriers to health and well-being.

HW was given to fill up the gaps from before pandemic to after pandemic.

The main motive for the HW was that they can utilize the

vacation fun with learning and doing productive things beside study.

The topics were table manners, learning school prayer, phonic rhyme, using golden words correctly as and when needed, skill sheet worksheets etc. .

Above attached pictures are the key for student's success and it is noticed that it went as a fruitful vacation.

## BLUE DAY

**"Blue is the colour of peace. Water is blue. I like the blue because it just puts me at peace. The patriotic symbol is blue."**

The kindergarten section of Delhi Public School Panvel celebrated Blue Day on 16th June, 2022. It was a pleasant and a cool blue day for the tiny tots. Different activities were conducted by each class like sticking blue paper, colouring with the blue colour etc. Excitement and enthusiasm

were visible everywhere. All the children came dressed up in different shades and hues of blue. The classrooms were decorated with blue balloons and children were introduced to different shades of blue.

## STORY BOARD MAKING

Kids grow up listening to bed time stories from their grandparents and parents. Little do we know that their imaginations start taking shape and the kids become capable enough in expressing

them through story boards  
(Comic strips).

Actually they are capable enough. The above images of the students of grade 4 prove it.

## LANGUAGE ACTIVITIES - HINDI

**श्रवण कुमार**

Written by Arjun Kumar  
Vik & Neil Publishers

**KUMAR**

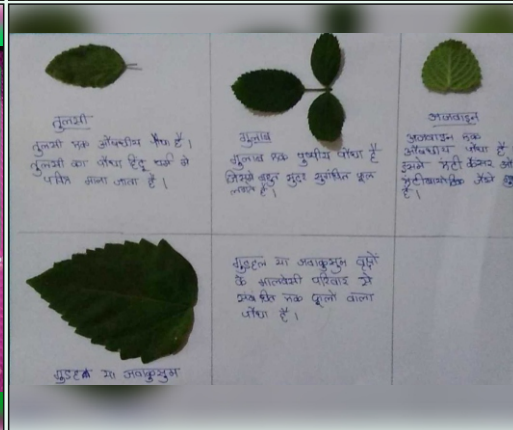

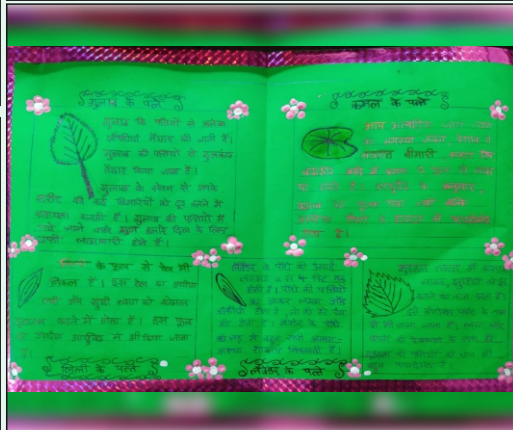

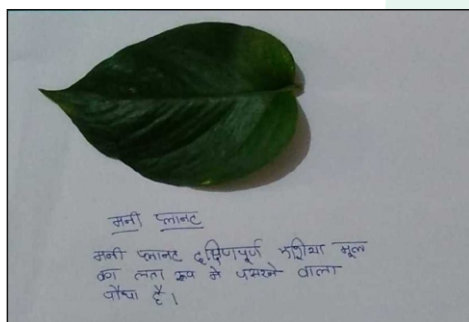

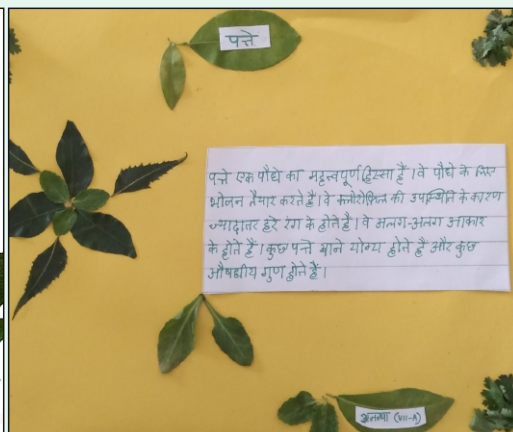

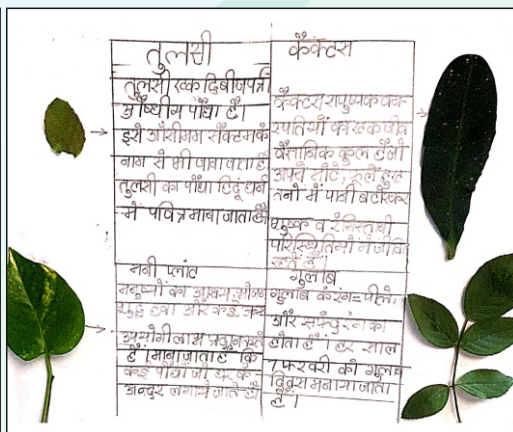

The most educational character of Parmanand described in Hindu mythology

**श्रवण कुमार का बचपन**

श्रवण कुमार ने अपना संपूर्ण जीवन माता और पिता की सेवा-सुश्रूषा में समर्पित कर दिया और मृत्यु पर्यंत उनकी सेवा करते रहे। अपनी इसी मातृ और पितृभूमि के कारण वह अमर हो गए। श्रवण कुमार का वर्णन वाल्मीकि रामायण के ६४४ अध्याय में आया है।

श्रवण कुमार शांतनू नामक एक साधु के पुत्र थे, उनकी माता का नाम जानवती था, जो एक धर्मपरायण स्त्री थी। इसी के माता-पिता ने वहूनी थे, बड़े कष्ट सहकर उन्होंने उनका पालन-पोषण किया था। इसलिए माता-पिता के प्रति उनके मन में असाह पैम और श्रद्धा थी।

❖ जब वे कुछ बड़े हुए, तो अपने माता-पिता की सेवा में लग गए। वे नदी से पानी भरकर लाते, जंगल से लकड़ियाँ चुनकर लाते, भोजन तैयार करते और घर के समस्त कार्य करते। माता-पिता की सेवा करना वे अपना परम धर्म मानते थे।
