From Principal's Desk ...

Dear Parents / Students,

The celebration of the founders Day of DPS Panvel completing its 6 years Journey, only made it more evident that our fledgling institution is in good health, thanks to the paternal care given to it by the school management, staff and the support and trust of our dear parents and children.

Even our youngest students have the maturity and compassion to understand their roles in the society. This is testament to the values of the Junior School, where foundations are laid for much of the success of our graduating classes.

I may perhaps recall that the only previous occasion on which all of you and I have appeared together on one platform was Foundation Day. We embraced our past on Founder's Day while celebrating the present and looking forward to the future.

Children grow in the image of those whom they love and therefore, we nurture them knowing fully well that education is only drawing out what is already in the student, while we try to provide a suitable environment for children to grow.

With the Pandemic still on CBSE has taken steps to improvise the assessment and evaluation system. There has been a constant effort to ensure there is more transparency and ease for our students, through orientations and presentations that our teachers have been conducting parallel to class room instructions. As of now, the CBSE has planned to hold the Term I exams in November-December 2021, and Term II exams in March-April 2022. We have implemented Competency-based education which is based on the principle that all children can learn at high levels. Our educators in competency-based education environments helps students grow and deepen their learning from where they are and ensure every student succeeds, not just some.

DPS Panvel believes that strengthening the mind to promoting better time management skills, extracurricular activities can help students succeed in much more than just their academic endeavors, but also assist in exploring interests and develop professional skills in them. Nursery to Grade 6 students have been enjoying storytelling through Freedom app. KG 2 to Grade 2 have been having Speech and Drama sessions to develop their communication skills. Moving at par with technological developments, for Grades 3 to 6, we have introduced Makebot Courses-learning software based coding, gamified learning, an opportunity to explore, create their ideas with the help of technology. Arduino UNO-Courses for Grades 7 & 8, which is a programmable IC and it, is an open source electronic platform or motherboard which will help students to create their own small working models. A new course on Food Designing has been introduced for 9th & 11th graders. Further, for students of Grades 11th & 12th our collaboration with CIALFO has opened up a varied range of courses, workshops and internships to groom them and also assist in choosing and applying in various foreign universities of their choice.
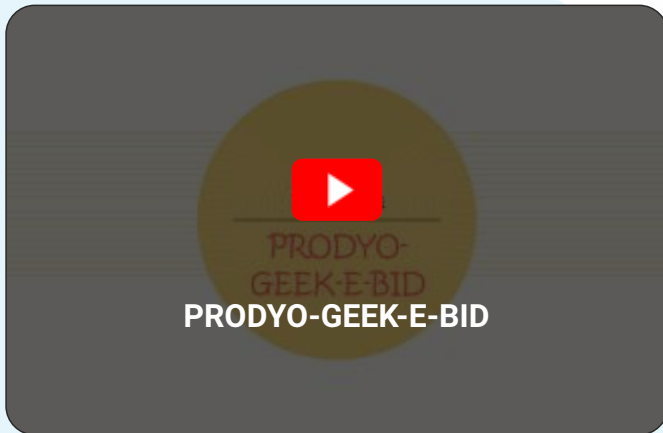

In the current context of lock down and restriction children have constrained access to socialization, play, and even physical contact, critical for their psychosocial wellbeing and development and hence our initiative of *GUPSHUP* where children get to just speak out their heart and enjoy the companionship of their mates away from academic rules is just the way to absorb their anxiety and pain of limitation of interactions with their peers.

My request to the parents is to ensure that they too provide a congenial atmosphere at home for their ward study, progress and imbibe the strength to face the challenges that may unfold in life. And with that thought, I thank you, dear parents, for all for your amazing support and for trusting us to care for your children. You can be confident that our simple goal is much the same as yours. We want the very best for your children, and to us success means absolutely nothing if it doesn't come hand in hand with appreciation of loved ones.
**- Mrs. Anita Dua**
Principal
DPS Panvel.

Dil Ki Baat
Season 2

PRODYO-GEEK-E-BID

The first episode of Dil Ki Baat was named Prodyo-geek-e-bid and revolved around students and the theme of 'the generation of technology'. The students and teachers shared and discussed various challenges and incidents they faced while working or studying online. They also showed off their internet surfing skills in a quiz.

WOH DIN

The second episode of Dil Ki Baat was called Woh Din and was based on the times when the parents were in there teenage years. They shared their talent and also talked about how their experience was of the various steps of life as a student. A hilarious segment was when the parents shared the innocent naughtiness they showed as kids

GOLDEN ERA

The third episode of Dil Ki Baat was called Golden Era and was based on the life experiences and the times when the grandparents of the students were young. They shared many stories on topics that connect theirs and the modern times and also gave important life advice. They also shared the new experiences they have had during the lockdown

GHAR SE DOOR, DOOSRA GHAR : SCHOOL

The fourth episode of Dil Ki Baat was called 'Ghar se door, doosra ghar: School' and focused on the bond that the students and teachers share. The teachers received heartwarming surprises when they read some secret letters that the students had penned for them. The process of adapting to the new way of teaching was also discussed by the teachers. The importance of the school as a tight knit community was also celebrated.

Teachers are special and here is a glimpse of some of those appreciation that was shared by our students to showcase their love.

The team who brainstormed to make Dil Ki Baat 2 a great success- Grade 11 , Batch of 2021-22 .

Congratulations

THE TEAM OF DPS PANVEL AT INCEPTION -YEAR 2014

6TH

FOUNDER'S DAY CELEBRATION - DPS PANVEL

14TH JUNE 2021

FOUNDATION DAY

Founder's Day activity
14/6/21
KG 2B

The fifth episode of Dil Ki Baat was based on the celebration of the 6th Founder's Day of DPS Panvel. The founder members of the school: teachers, management, mentors and students had a fun and emotional chat reminiscing the infant years of the school. Old memories were shared and the unity of the school was projected.

Congratulations!

CBSE OUTSTANDING PERFORMANCE

Aryan Shrivastava

Class X - Batch 2019-20

Congratulations!

PEN VIBES-3 LITERARY FEST

Vishika Tripathi
Class X A - Batch 2021-22

DPS BOPAL,AHMEDABAD had conducted PEN VIBES-3 its literary Fest. Our students had taken active participation in all categories . Students had to submit a self created poetry to be selected for the final round . Two of our students were selected for the finals . In the final rounds students had to recite their self creations before a panel of judges .

Miss. Vishika Tripathi,Grade X, has grabbed the 3rd position in the " Pen vibes 3 " self composed Poetry recitation competition,conducted by DPS Bopal, Ahmedabad !

Anvikaa Patil,Grade VI who got selected for the final round gave a very confident performance, however must say the competition was a tough one .

Congratulations to DPS Panvel !

Kiss the Heaven

Picture a girl at the top of the world
With nowhere higher to go
Lunging bare necessities on her back
Conquering Kilimanjaro

She trains all day and dreams all night
Spares no moment to rest
And only sets down her weight and inhibitions
Once she summits the Everest

Now picture a girl lying helpless
An attempt to rob her of a gold chain
Some sullen monster robbed her of a limb
For she gets run over by a train

No one to spare a sliver of mercy
Her body trembling from pain
But the girl on the top of the world and on the tracks
And in fact the same

She could play the victim and survive on sympathy
At least that's what she's ought to
No one could or should blame her
But she chose not to

She said "I wish to kiss the sky
And taste those clouds with my fingertips
I want to map the world out with my hands
And stain the heaven with my lips"

She vowed to do the impossible
And the impossible she has done
It is a beautiful beginning
And she has only begun

She vowed to kiss the heaven
And it's the heaven she did kiss
If there is something I want you to take away
from this story
Then let it be this

With or without a limb, if you trust yourself
You can reach the highest altitude
And the only disability
Is a bad attitude

Success sees no creed or kind
Ability or disability
So it's about time stop blaming circumstances
And take responsibility

There is but a single thing
Standing between you and your success
And quiet unfortunately
It is you

And it is as ironic and fortunate
As much it is true
The only person that can get you
There are you

GUPSHUP

Gupshap is a platform where students and teacher communicate with each other. Here the number of students are less so that everyone feel connected and share their thoughts. Students talk about their likes and dislikes. They also talk about their hobbies and interest.

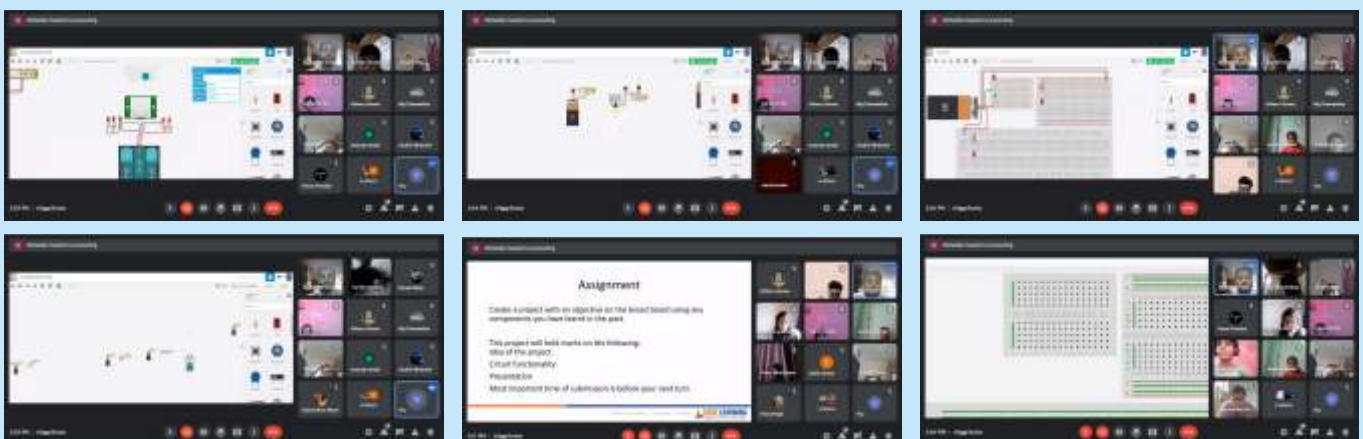

MAKEBOT

Gamified software based coding course to learn to Explore and create ideas with the help of technology - Classes 3 to 6
