CHAIRMAN'S MESSAGE

The Delhi Public School (DPS) Society had its genesis in 1949 when the first DPS at Mathura Road in New Delhi was set up. This School embodied a commitment to academic excellence and a holistic approach to education. The Society's footprint steadily expanded to more than 200 schools today in India and abroad. The influence of its alumni called "DIPSITES" is felt around the world and in various fields from Engineering, Medicine, Law, Civil Services to Cinema and Sports.

"I am confident that the prospectus of DPS Panvel will give complete information to those who go through it and will enable them to take an informed decision for admission of their ward in the school."

Shri V. K. Shunglu

Honourable Chairman
The DPS Society

FROM THE PRO-VICE CHAIRMAN's DESK

It gives me immense pleasure to welcome you to Delhi Public School Panvel, an institution committed to combining the enduring values of education with the opportunities, skills and learning environments demanded by the future.

At DPS Panvel, growth is purposeful when it strengthens the experience of every child. The inauguration of our world-class auditorium on 12th September 2026 has created a vibrant platform for performance, dialogue, celebration and community engagement. Our new academic block, with state-of-the-art science laboratories and thoughtfully designed classrooms, further enables inquiry, experimentation and collaborative learning. A dedicated robotics laboratory is also underway, opening new possibilities for innovation, computational thinking and hands-on problem-solving.

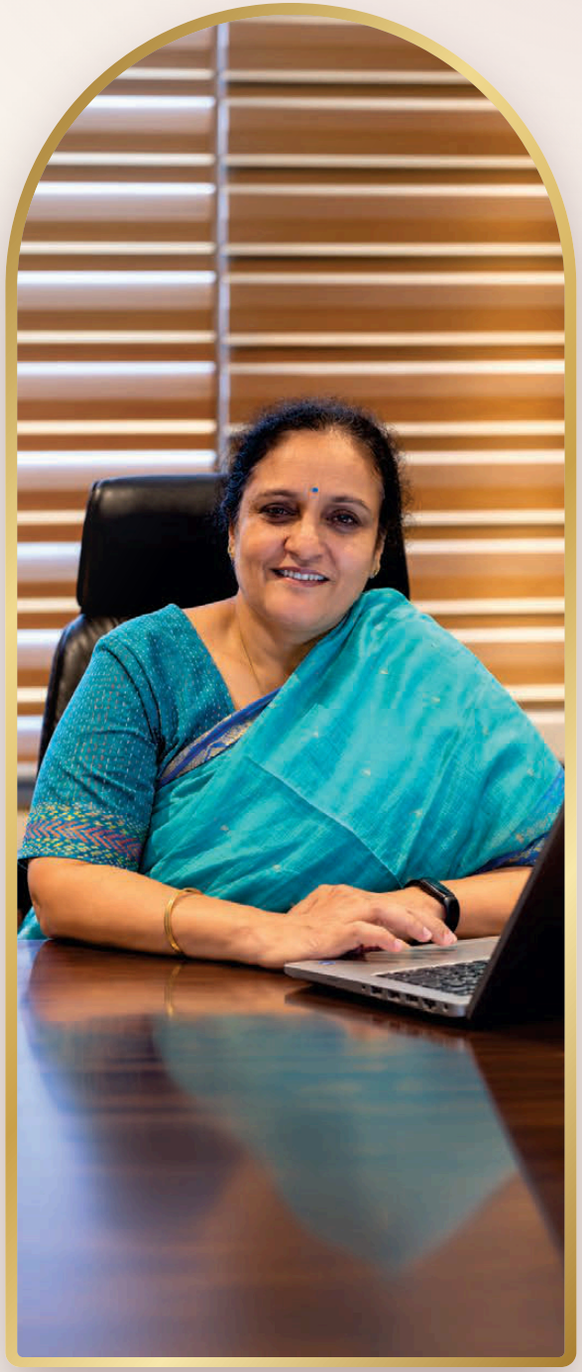

Our progress begins from the earliest years. The Finland curriculum accreditation for our Early Years programme reinforces our commitment to joyful, child-centred and developmentally responsive learning. Beyond academics, our expanding sports infrastructure, including an international-standard sports field now being developed, will encourage discipline, resilience, teamwork and excellence. Initiatives such as the Speech & Debate India and Kruu Scholars Programme will further help students find their voice, strengthen their confidence and communicate with purpose.

Yet buildings, laboratories and programmes acquire meaning only when they help children become thoughtful and capable human beings. Our educational philosophy therefore brings together academic rigour, creativity, digital fluency, life skills, socio-emotional well-being and strong values. We aspire to develop learners who question intelligently, act responsibly, embrace diverse perspectives and contribute meaningfully to society across our network schools spanning regions such as Navi Mumbai, Kolkata, Dahanu, Dhanbad and various other parts of Bengal.

To every parent, thank you for your faith in DPS Panvel. Education is not a transaction; it is a shared journey of transformation. With the collective commitment of our educators, families and students, we will continue to build a school that stands for excellence, innovation and character that prepares every child not only for the world ahead, but to improve it.

Mr. Anuj Agarwal
Pro-Vice Chairman

FROM THE HEAD OF SCHOOL's DESK

Welcome to Delhi Public School Panvel.

At DPS Panvel, our endeavour is to create an environment where academic rigour is complemented by sports, arts, music and drama.

Our primary goal is to bring out the very best in every student and to make them an upstanding citizen of India and the world.

Education, in today's rapidly changing world, is much more than the acquisition of knowledge or the pursuit of academic excellence. It is the foundation upon which individuals build their character, develop their abilities, make informed decisions, and prepare themselves to navigate an ever-evolving world with confidence, compassion, and responsibility. These goals are achieved through the dedicated and qualified staff of the school and infrastructure, including 21st-century classrooms, a multi-sports arena with a swimming pool, state-of-the-art laboratories, robotics room, music room, libraries and IT infrastructure. Our active internship programme ensures that our students also get real-world experiences.

At DPS Panvel, we believe in working with parents to bring out the unique potential in every child and to help them find their place in the world. Ultimately, the greatest measure of education is the influence that our children have on the world.

Ms. Sravani Rao
Head of School

FROM OUR CORE TEAM's DESK

As DPS Panvel completes ten remarkable years, we pause to reflect on how far we have come and to look ahead with renewed purpose. In one decade, a young school has grown into a vibrant community of learners, where academic excellence goes hand in hand with values, discipline and character. Every milestone reflects the dedication of our teachers, the trust of our parents and the hard work of our students. As we celebrate our 10th year, we remain committed to nurturing curiosity, encouraging innovation and preparing every child to thrive in an ever-changing world. Our vision: "Your Future, Our Passion."

Mr. Abhinav Saraogi
Director – Operations

At DPS Panvel, people remain at the heart of everything we do. Our teachers and staff are the foundation of the school's strength, and this year's milestones, including welcoming our largest family of students yet, reflect their dedication. We remain committed to a culture of collaboration, inclusivity and continuous growth, where every member of our team feels valued and inspired. Through sustained investment in training, infrastructure and holistic well-being, we ensure our educators thrive as lifelong learners and mentors, so our students grow into confident, capable and compassionate individuals.

Mr. Jitendra Soni
Director – Systems

There's a side of school that doesn't always get spoken about: the bus that arrives on time, the campus that's clean and safe, the small details that make a day feel settled. That's the side I spend my time on, because it matters just as much as anything in the classroom. Parents rarely see what goes into a safe pickup or a day that simply runs on time, and that's how it should feel: effortless. Behind that ease is a team that understands the trust you place in us each morning, working so your child's day starts and ends with ease.

Mr. Dpesh Kanodia
Director – Transport

I often share an equation with my students: **$Y = e^3$**, i.e., ***Youth is the Explosive Engineering of Energy***. To me, it captures the extraordinary possibility within every child. At DPS Panvel, our role is ***not to quiet that energy but to give it purpose***: **the freedom to question, the courage to create & the wisdom to care**.

We want children to do more than just solve problems on paper. We want them to notice problems worth solving in the world, because the future needs more than just **bright minds. It needs young people who use their brilliance** ***to make life better for others***.

Mr. Harshit Chokhani
Group Chief Operating Officer

Nestled amidst the sylvan surroundings of the Sahyadri hills, DPS Panvel boasts an 8-acre campus with extensive facilities for classroom teaching and for indoor and outdoor activities. At the heart of everything is our vision, "Your Future, Our Passion." Our dedicated educators, kept current through regular training on global trends, are guided by a young, forward-thinking management team whose passion for the school is boundless. Our students are our future and our constant focus. Together with parents, we work towards making them happy, productive and confident citizens of India and the world. Every child belongs to one of four houses, Explorer, Magician, Pioneer or Maverick, where leadership, teamwork and service come alive through inter-house competitions and community projects.

ON-BOARD FEMALE ATTENDANT

A female attendant helps ensure a safe environment for students by providing supervision, managing any issues or conflicts, and serving as the point of contact for parents.

AIS 140 GPS DEVICE

The AIS 140 GPS device is an RTO-approved system used for live vehicle tracking and navigation.

DUAL CCTV CAMERAS

Two cameras cover the front and back of the bus, ensuring complete surveillance and helping deter inappropriate behaviour, bullying or misconduct among students on board.

AC BUS SERVICES

Air-conditioned (AC) bus service has been introduced on certain routes from July 2025, providing a cool and pleasant ride to our students. More routes will transition from non-AC to AC buses within the next few years.
